Stanislaus Bows to Pascagoula

Striding twice in the second half, the Stanislaus team of the County Sweet Potato Growers' Association, directed their organization efforts towards the Kiln Community when a meeting was held Monday night, November 18, at Kiln School. While the attendance was not large an interest in the growth and spread of the organization was manifested by those present. Another meeting will be held at Kiln School in about another month.

Early in the third quarter the visitors showed their way for a touch down and were leading 7-6. The Rocks began to surge forward again but a 10 yard roughing penalty, putting the Stanislaus on the Rocks 20 yard line, set up the next touch-down. In three plays Pascagoula scored and put the game on ice by score of 14-6.

SURPRISED ON 40TH WEDDING ANNIVERSARY

After spending the morning with their son and daughter-in-law, Mr. and Mrs. Gaspar B. Maurigi, Jr., and Mrs. Gaspar B. Maurigi, Sr., returned home to find their dining table richly groomed with a veritable banquet of their favorite dishes, prepared and cooked by their son, Maurice. A surprise celebration given them on their fortieth wedding anniversary, Sunday, November 17th.

The dining table was covered with an exquisite cloth, silver and crystal. The centerpiece was a beautiful four-tier cake, with "40th Anniversary" in ruby coloring, ruby being the appropriate color, a bowl of ruby and white chrysanthemums which later replaced the cake as the centerpiece. And throughout the house vases of these lovely blooms were artistically arranged.

Mr. Maurigi was presented a carnation boutonniere while Mrs. Maurigi received a beautiful carnation shoulder corsage. During the celebration this esteemed couple received many useful and beautiful gifts. Mr. Scuderi was called in to take pictures of the couple.

St. Stanislaus Team Will Play in Bantam Toy Bowl In Birmingham

From Birmingham, Alabama, comes the following news release:

To the growing list of annual post-season grid classics, as akin to the American grid scene as corabees is to cabbage, the Alumni Association of the John A. Carroll Memorial High School takes pleasure in adding the TOY BOWL, scheduled to be inaugurated at Legion Field, Birmingham, Ala. Saturday, December 14.

Part of a two-day celebration to benefit the aforementioned school, the TOY BOWL football game will bring together two enthusiastic, well-trained midget teams, one from Bay St. Louis, Mississippi, and the other from the Magic City. All of the players are in the primary school grades and range in age from nine to 13.

The respective squads will be divided into two distinct units, a "flea" team, consisting of boys weighing 75 to 90 pounds, and a "fly" team, with a 91 to 105 pound weight limit. The "flies" will operate during the first and third quarters with the "fleas" taking over in the second and fourth periods.

The Mississippi squad will copy the uniforms and formations of Notre Dame, the Birmingham team following the dress and grid patterns of Alabama's Crimson Tide. The former eleven will be coached by Brother Peter, S. C., former president of the Southeastern A. A. U. and director of St. Stanislaus College, one of the South's foremost sportsman-educators, who has developed, among others, Marchie Schwartz and Doc Blanchard. The Birmingham squad will be under the tutelage of John de Buys, former Tulane football and boxing star. Honorary game coaches will be announced in the near future.

The contest will be broadcast on a state-wide radio network, with Maitry Farrell, CBS sportscaster, handling the play-by-play.

LET US RETURN THANKS

BY official proclamation the 28th day of November has been designated as Thanksgiving Day and the people of the United States have been urged to utilize the holiday as an occasion upon which to reflect upon the mercies and blessings accorded them and their country and to return thanks to Almighty God for His favors.

To those who believe in a Supreme Being, interested in men and mankind, it is natural to consider one's blessings and to be thankful. It is appropriate that this nation has taken cognizance of the feelings of its people and set a day certain for worship and thanksgiving.

It is not necessary to attempt to recount the many reasons why the people of this country should be extremely thankful. To do so would catalog the abundant blessings that have come to us in many forms. We are almost a nation set apart, so great is the difference in the material prosperity enjoyed by Americans.

Every reader of The Echo who believes in God, has many personal reasons for which to give reverent and bountiful thanks to the Divine Creator. While this is, in part, the daily custom of devout, religious people, there is something impressive in the mass observance of the special day by the people of any community.

Let us all, therefore, in our own way, take part in the observance of Thanksgiving Day this year. Our nation has withstood all threats, our way of life survives and we are enjoying great material prosperity.

SUGGESTS HEAVIER SCHEDULES

HIGH school students of Hancock County will be interested in the conclusion of Dr. Paul Collier, director of Connecticut's Bureau of Youth Service, that heavier study schedules are desirable for young people, whom he described as "the brightest in history."

The heavier study program, he asserts, would eliminate "much complaint of the loafing done by high-school students." He reports that experiments show that students can carry as high as eleven or twelve a year, compared with the four or five they are now required to pursue.

The educational expert advances an interesting idea and there is something to his conclusion, even if it applies only to the top-flight students of a class. Undoubtedly, a study program, arranged to take care of average students and average intellects, offers a loafing opportunity to students of unusual ability. Whether it applies to all students in high schools may arouse discussion and debate, but we note that Dr. Collier's statement is based upon the result of "experiment."

TOUGH ON VETERANS

THE veterans of the late war have, we believe, ample ground for discontent. While a few have been fortunate, there are hundreds of thousands who have been unable to secure homes or automobiles and find themselves unable to renew normal living.

Consider the position of the veteran who needs a home: The market prices are high, the cost of construction almost prohibitive and many necessary products scarce. While these service men wait, they see civilians, who did not smell powder, building homes without regard to conditions and largely exploiting the profits they acquired while other men fought for them and their country.

Take a veteran, home from the wars, who wants an automobile: He stands little chance of nosing out a priority-holding civilian. Many heroes of bitter battles, when life hung in the balance, are now in position where they need an automobile. Do they get any worthwhile priority or do civilians get the bulk of the automobiles? The only priority that battle-tested veterans recall the primacy of risking life and limb while millions were at home with ample opportunity for war profits.

We have heard complaints from veterans who have attempted to buy surplus war materials. Despite official intentions, the stuff seems to get into the hands of speculators who, unfortunately, upon occasions are veterans themselves.

"Last Roundup" Before Thanksgiving

An abundant turkey crop for 1946 promises that the nation will observe Thanksgiving in the established tradition. But not every family will dine on a gobble chosen "on the hoof." Pretty Marys Pascoe, of Detroit, Mich., made sure of her selection by driving her new Chevrolet out to Shady Valley Farms, one of the largest turkey farms in the country, where Orville M. Feimle assisted in the selection.

How to Handle a Fortune

Some months ago I reported in the Clarion how Mel Bate's uncle died up north, and left him with a tidy fortune.

Naturally, our town was curious to see how Mel would spend it: Traveling around the world . . . getting a new house or car . . . wearing fancy clothes . . . or dining on cold pheasant and champagne . . . ?

We can now report, Mel hasn't changed a bit! Drop in on him any night, and you'll find him in his shirt sleeves by the fire, chatting

with the Missus, sharing a mellow glass of beer with friends.

From where I sit, Mel has learned the art of handling money — as well as handling people. You don't let cash-in-the-bank push you around any more than you let people push you around. If you like the simple, homey life; companionship and quiet ways; a glass of beer and friendly talk — that's worth a fortune, after all!

Tigers Ready for Pirates
The Pass Christian High Pirates will play host to the Bay High Tigers on Friday night when the Pirates will celebrate their annual Homecoming before an expected large crowd.

Both teams met earlier in the season and Pass Hi edged out a 7-6 victory over the locals. In the forthcoming game we will find the Tigers out for revenge, while the Pirates will be determined to make Homecoming a success by having a victory.

From both coaches come word that their respective teams are in good physical condition and with the exception of minor injuries both teams will be ready for plenty of action.

The fans will see two great fullbacks when McDonald of Pass Christian High and Chiniche of Bay High who is rated the hardest plunging fullback on the coast, will be carrying the pigskin for their teams.

The Bay High Band under the direction of "Pat" Rooney will furnish entertainment to the fans during half-time.

Bay High Loses to Picayune

On Thursday night, November 14, the Bay High Tigers lost to a strong Picayune eleven by the score of 25 to 7.

The Maroons received the kickoff at eight o'clock. After several attempts were made on the part of the Maroons to go through the Tiger line they were forced to punt.

The Tigers proved to be very strong on the offensive and almost any play was successful. Driving from their own thirty yard line, the Tigers went 70 yards for a touchdown. The drive was led by fullback Chiniche as he, almost at will, went through the Maroon line. Chiniche also scored the extra point, which gave the Tigers the lead of 7 to 6.

The Maroons again received but could not hold the ball for more than three downs when they were forced to punt. The Tigers, with hopes of getting a sufficient lead on the Tide, started another drive that was stopped on Picayune's two-yard line at the half.

During the third quarter, the Maroons' comeback was strong; they drove hard and scored a touchdown. Their kick for the extra point, which was good, brought the score up to 13 to 7.

The Tigers received the kick but were stopped on every play and forced to punt. The Maroons took the ball and drove for another touchdown but failed to make the extra point. The Tigers were on their own 10 yard line and lost another touchdown by a fumble. The score was then 19 to 7. During the last few minutes of play the Picayune tide scored again, and the game ended Bay High 7, Picayune 25.

Pass Christian student body has cordially invited the Bay Hi Football team, Cheerleaders, Band and Junior and Senior Classes to attend their Homecoming dance which will be held following the football game at Pass Christian.

WHAT IS A CUSTOMER

The following feelings that we of Mississippi Power Company want to maintain toward those we serve were expressed recently in our employee magazine. The statement occasioned so much interest that we present it here.

A customer is the most important person ever in this office—in person or by mail.

A customer is not dependent on us—we are dependent on him.

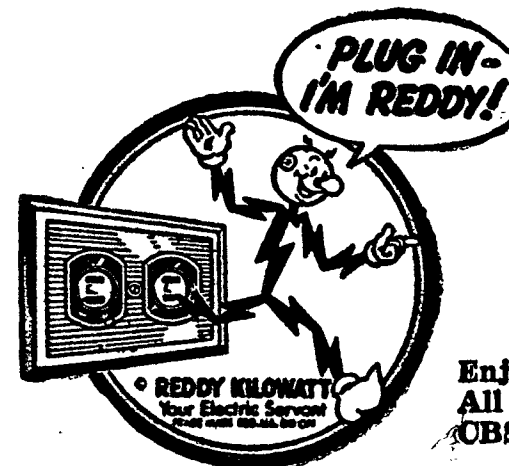

A customer is not an interruption of our work—he is the purpose of it. We are not doing him a favor by serving him—he is doing us a favor by giving us the opportunity to do so.

A customer is not an outsider to our business—he is a part of it.

A customer is not cold statistic—he is a flesh-and-blood human being with feelings and emotions like our own.

A customer is not someone to argue or match wits with. Nobody ever won an argument with a customer.

A customer is a person who brings us his wants. It is our job to handle them profitably to him and to ourselves.

The amount of money paid out to furnish you with telephone service is increasing faster than the amount taken in. That's because telephone materials, wages, services, and new building costs have all gone up tremendously, while telephone rates have remained as low or lower than they were many years ago. Telephone earnings today are not only the lowest in history, but are dangerously low despite a record volume of business. "BOYS' RANCH"

Blends Human Interest with
Dramatic Excitement

Human interest and dramatic excitement are skillfully blended in "Boys' Ranch," new M-G-M picture which opens at the Ortte Theater, with Jackie "Butch" Jenkins, James Craig and Skippy Homeier heading a noteworthy cast.

The story, inspired by the famed refuge for homeless boys near Amarilla Texas, founded by Cal Farley, centers on the attempt of a Texan and his neighbors to give a fresh start in life to juvenile delinquents who have been handicapped by poverty and the wrong environment. James Craig is seen as the man who is willing to stake his career on the experiment of a Boys' Ranch, with "Butch" Jenkins, Skippy Ho-

meier and Darryl Hickman as three of his charges. The boys help to build the ranch that is to be their new home; they learn to grow farm produce and to raise prize cattle. It seems as though the enterprise will turn out a success until Skippy, toughest of the lot, reverts to type and steals the prize money of a cattle show. Even his cynical character finds regeneration, however, when he saves a friend's life in a dramatic flood sequence, and the future of Boys' Ranch is assured.

James Craig is forceful and convincing in the role of the idealist who devotes his life to the cause of the wayward youngsters, and a newcomer to the screen, Dorothy Patrick, is excellent as the wife who becomes a second mother to all her charges. Little "Butch" Jenkins charges his performance as a pint-sized orphan with humor and vitality, and the part of the chief problem child and his pal are deftly handled by Homeier and Hickman.

"Boys' Ranch" is a picture to be recommended to filmgoers of every age.

Veterans' News

The Veterans Administration will provide the most modern facilities to aid deafened and hard of hearing veterans, according to an announcement this week by VA's medical director.

The program is designed to aid these veterans in rehabilitation, economic independence and adjustment to society and their own communities.

Dr. Norton Canfield, Associate Professor at Yale University, will be in direct supervision of the program. Dr. Canfield was closely connected with the hearing program of the Army in the Surgeon General's Office during World War II.

There are already 36,000 veterans of World War II who are ear casualties. About 12,000 veterans of World War I are still receiving compensation because of deafness. VA anticipates that there will be about 300,000 veterans in need of attention due to impaired hearing within the next 20 years.

Special rehabilitation centers for the deaf and hard of hearing will be set up throughout the country at strategic locations. Here, veterans will be trained and provided with the latest in hearing devices.

Veterans who wish to assign their terminal leave bonds to the Veterans Administration as payment on their GI insurance should get the necessary assignment forms from the nearest VA office.

Although VA does not issue the terminal leave bonds, under the Armed Forces Leave Act of 1946, the law authorized VA to accept the bonds as insurance payments.

When a bond is used for insurance premium payments, it must be assigned in its entirety, VA said. Any balance above the amount necessary to make the desired payment will be credited to the veteran's account and will be used to pay future premiums unless otherwise requested.

QUESTIONS AND ANSWERS

Q. Does a veteran who is going to school under the GI Bill of Rights have to report money he earns through overtime work?

A. The veteran must report those wages received for the standard work period of the establishment where he is employed, including overtime work customarily scheduled. It will not include occasional overtime beyond the standard work period of the establishment.

Q. I am taking training under the

NEH BOTTLING CO.
GULFPORT, MISS.

G. I. Bill and am working at night for which I receive the usual 10 percent differential. Do I have to report this differential to the Veterans Administration in making a report of my income?

A. Yes. Both the base pay and the 10 percent differential would be included as wages in determining the rate of subsistence allowance payable and accordingly must be reported by the veteran and the employer.

Q. Can my subsistence allowance be apportioned in event my wife and I decide to separate?

A. Yes. The subsistence allowance is subject to apportionment on the basis of 70 percent to the veteran and 30 percent for the wife. Further apportionment may be made in the case of children.

Q. Is a veteran following a course of vocational training entitled to a vacation during the time he is in training?

A. Yes. A leave of absence may be granted but not to exceed 30 days in any consecutive 12 months.

Q. Will subsistence allowance be reduced during the leave of absence or vacation of the veteran?

A. No. The veteran will be considered as pursuing his course of vocational rehabilitation while on vacation and will be paid accordingly.
